

Making a Difference.....

Classical and Fine Arts Fund

In 2004 an anonymous donor established the Classical and Fine Arts Fund of Harrison County to encourage the creation, appreciation, and availability of classical arts and literature in the county.

A broad range of arts related activities can be supported by this fund including public broadcasts, public performances or exhibits of classical music or literature. Funding for competitions in the arts, purchase of works of art created by county residents for public display, and the purchase of fine arts in various mediums for the public library are also included.
