

Making a Difference.....

George L. Hess Family

Harrison County

Public Library Fund

The family of George and Neva Hess created this fund in 1999.

As children, they learned the importance of reading and frequenting the library from their

parents. Remembering their lifelong love for this community, the Hess family established an endowment in their memory to assist our excellent county-wide library system - particularly in the development of children's materials and programs.

Contact us to learn how to create a lasting legacy in your loved one's name.
